At a glance

Unrivalled SAP integration knowledge and expertise

All we do is SAP. Delego is the only vendor that leverages SAP as the system-of-record, eliminating cumbersome reconciliations and smoothing process flows.

Best-in-class payment data security

As a PCI DSS Level 1 Certified service provider, Delego safeguards cardholder data with its proprietary, processor-neutral tokenization technology and provides customers with a private, single-tenant cloud infrastructure eliminating the risk of co-mingled data.

Digital payments enablement

Delego can help reduce payment friction by seamlessly integrating multiple payment types, including traditional credit cards, digital wallets and alternative payments in your web store, call center, or AR payment acceptance.

Providing best-in-class e-payment integration, transaction enablement and data security solutions for merchants running SAP

Delego has been an SAP Software Partner since 2000 and was the first to receive the SAP certification as a payments solution. Today, we help the world's leading companies expand their e-payment capabilities, seamlessly integrating and securing their payments ecosystem with SAP software using our flexible and tailored solutions.

Why do market leaders choose us?
