**Verbella Export Connector is Certified as
Powered by SAP NetWeaver®**
Solution Helps Make Document Archiving More Efficient

WEST CHESTER, PA — 04/27/2017 — Verbella CMG today announced that its Verbella Export Connector has achieved SAP certification as powered by the SAP NetWeaver® technology platform. The solution integrates with SAP NetWeaver and allows companies to process data and documents through SAP ArchiveLink® software. The SAP® Integration and Certification Center (SAP ICC) has certified that the Verbella Export Connector 3.0 for SAP ERP is powered by SAP NetWeaver.

Solutions that are powered by SAP NetWeaver can be more quickly and easily integrated into SAP solution environments. Customers can benefit from improved interoperability with SAP applications and with the large ecosystem of solutions that run on SAP NetWeaver. Choosing an SAP-certified solution can also help reduce overall IT investment costs and risks.

“We are delighted to announce the successful achievement of our Verbella Export Connector, now certified as powered by SAP NetWeaver,” said John Walls, President, Verbella CMG. “The ability of the Verbella Export Connector to run on SAP NetWeaver and interoperate with other SAP NetWeaver-based solutions will prove highly beneficial to our current and future customers.”

The Verbella Export Connector offers customers the ability to maximize the efficiency of attaching documents and data to transactions running in the SAP ERP application, and utilize the native functionality in SAP ERP to manage and view them. Documents can be captured in a variety of formats including paper, email attachments, PDFs, faxes and mobile devices.

About Verbella CMG:
