

i-TCODE

- Find the right transaction code with ease -

Finding and launching functions and applications in a SAP system can become tedious if you don't know the right transaction code. Our solution i-TCODE will enable you and your colleagues to find the right transaction code within seconds right from your browser. Choose the right answer from almost 80,000 transaction codes and descriptions, using smart filters, sorting and advanced search options. i-TCODE can be easily integrated into Fiori Launchpad.

Features and Benefits

- Overview and description of over 80.000 transaction codes in a simple and fast table view.
- Sort results in alphabetic order.
- Fulltext search: the search term(s) are found both in the transaction code, as well as in the description.
- Finetune search: search can be limited to a single column (transaction code OR description).
- Wildcard search: Use the wildcard operator * to look for TCODEs and descriptions that start/end a certain way while all other characters are being ignored.

TCODE	Beschreibung
/USAPPROSC_SET	USD AppDescriptors remote steuern
/USAPPROSC_SET_ALL	Alle AppDescriptors remote steuern
/USDCACHE	Registrieren-Service für USD-Cache-Use
/USDCACHE_DEL	Cache-Einträge löschen
/USDCHP	CHP-Registrierung
/USDCSU	USD-Cache-Statistik
/USDCUST	Customizing für UI-Technologien
/USFEEDBACK_SETUP	USD-Setup des Benutzer-Feedback-Set
/USPLC	Prüfungen für SAP Fiori Launchpad
/USPLC1	Prüfungen für SAP Fiori Launchpad
/USPLJA	Fiori Launchpad Abbruchanalyse

Technology

- SAP UI5 Framework
- Slim and fast architecture with offline capabilities by utilizing embedded data (no backend component needed).
