**Reduce Spend**

- **Catch duplicate spend**: Identify duplicates irrespective of invoice number, including line-level, multiple invoices adding up to a duplicate, and cross-system duplicates (invoice or expense).
- **See invoice anomalies**: Find invoice anomalies that can signal errors, waste, or fraud in your spend.
- **Identify inflated prices**: Gain insight into competitive prices from online marketplaces to make sure you’re getting the best deal.
- **Get the price and discounts you negotiated**: Verify prices and discounts against your contracts to make sure you get the deal you negotiated.

**Comply with Policy**

- **Comply with contract terms**: Validate invoice payment terms and other key terms with those in your contracts.
- **Avoid regulatory violations**: Avoid regulatory violations by flagging contracts with or payments to foreign officials, politically-exposed persons, and healthcare providers.

**Streamline Process**

- **Be alerted to expiring contracts**: Be alerted to expired contracts and notified of expiring or auto-renewing ones while there’s still time to negotiate or identify alternative suppliers.
- **Auto-approve low-risk spend**: Skip the rubber stamp and save managers’ time by automating low-risk invoices for immediate payment.
- **Optimize manual approvals**: Provide risk details and evidence so reviewers can make accurate, consistent approval decisions.

**Platform Features**
