

RFgen Mobile Foundations for SAP

AUTOMATE YOUR SUPPLY CHAIN WITH
MOBILE DATA COLLECTION SOFTWARE

SUPPLY CHAIN MANAGEMENT. FAST. ACCURATE. EFFICIENT.

RFgen Mobile Foundations for SAP is a suite of pre-written, SAP-certified data collection solutions that feature real-time, bi-directional information exchange with your SAP system. RFgen's SAP enterprise mobility software supports real-time voice integration, wireless barcoding, and mobile applications. Automate warehouse management, supply chain management, inventory management, manufacturing and plant maintenance operations. This mobile data collection software solution is easily and quickly adapted to your company's unique workflows and can help you:

DRIVE EFFICIENCY

RFgen mobile applications help you automate transactions throughout your operations, so your employees can complete tasks more quickly and effectively.

INCREASE WORKER PRODUCTIVITY

Streamline operational processes and reduce errors when employees use mobile or barcode scanning devices to collect data.

MOBILIZE REMOTE/FIELD OPERATIONS

RFgen supports roaming, on-demand data collection, as well as fully disconnected operations. Collect data in the field or remote warehouses, then automatically update SAP when reconnected.

PEACE OF MIND WITH CERTIFIED INTEGRATION TO SAP

Whether you want to implement wireless barcode scanning, support off-network workflows or automate your manufacturing operations, RFgen Mobile Foundations for SAP delivers:

- ▷ **Certified connectivity**—RFgen integration is certified by SAP for versions 4.6c to 6.05 and SAP HANA.
- ▷ **Flexible developer productivity tools**—The integrated development environment enables your internal IT staff to rapidly customize and create new workflows, saving you both time and money.
- ▷ **Version independent**—RFgen does not install on your SAP server or modify your environment, so there's no hassle when it's time to upgrade SAP.
- ▷ **Easy to support**—RFgen administration tools enable your IT team to shadow users and see their screens in the console. You can also take control remotely and show users exactly how to perform a task.

FASTER RETURN ON INVESTMENT WITH PRE-BUILT MOBILE APPS

WAREHOUSE MANAGEMENT

Optimize the use of warehouse space, improve employee efficiency and provide better customer service by mobilizing inventory storage and handling. Conduct more efficient cycle counts, inventory transfers, pick confirmations, and more.

SUPPLY CHAIN MANAGEMENT

Meet rising customer expectations, run increasingly complex supply networks, and achieve faster responsiveness. RFgen gives you the tools to optimize procurement, ensure smooth sales order processing and capture employee time.

PLANT MAINTENANCE

Maximize the value of your equipment and plant assets with a proactive maintenance approach, significantly reducing overall operating cost and boosting plant productivity.

MANUFACTURING

Boost efficiency, reduce cost and increase profitability in your manufacturing process. RFgen enables you to design, build, and deliver the highest quality products, in the timeliest manner, at the lowest possible cost.

QUICKLY AND EASILY CREATE, CHANGE AND COMBINE MOBILE APPS FOR SAP

The RFgen Mobile Development Studio is an integrated mobile applications development platform that enables your in-house developers to rapidly design, test and deploy mobile applications.

When you purchase RFgen, you receive the source code for the pre-built suite of mobile applications. Request RFgen Professional Services or use the RFgen Mobile Development Studio internally to modify or create mobile applications using a drag-n-drop interface; developers get a .NET based development environment for code-level control.

RFgen mobile themes give your developers significant control over how applications will look on end-devices, and depending on the end-device capabilities, RFgen fully supports most standard touch screen gestures.

DESIGN ONCE, DEPLOY ON ANY DEVICE

With RFgen, applications are written once and can be deployed across multiple mobile device platforms, including Windows Mobile, Windows CE, iOS and Android. RFgen can also extend connectivity from your SAP system to carousels, scales, Vocollect voice devices, wearables, telnet devices, machine-to-machine environments, and more.

GAIN A COMPETITIVE ADVANTAGE WITH SUPPLY CHAIN ACCELERATORS

Supply chain professionals face strategic challenges, governmental and economic pressures, and a multitude of tactical issues every day. RFgen offers mobile solutions to address these challenges and help you optimize your supply chain operations.

RFGEN OFF-NETWORK MOBILITY SOLUTIONS

Automate field sales/service operations with support for roaming, occasionally-connected data collection using on-demand cellular/Wi-Fi connectivity to SAP. RFgen also supports fully disconnected scenarios where data is pre-loaded on the device, remote activities are locally validated, and transactions are exchanged with SAP at various intervals.

SET YOUR WORKFORCE FREE

Increase productivity by voice-enabling your warehouse with RFgen-Vocollect Voice Solutions for hands-free and eyes-free operations. The next advancement in warehouse automation, voice-directed technology can revolutionize your warehouse operations and provide you with dramatic improvements in speed, accuracy and safety.

INCREASE VISIBILITY WITH RFGEN SHOP FLOOR DATA COLLECTION

Manufacturers are constantly looking for ways to trace materials and products through the supply chain, increase facility throughput, reduce cost and improve on-time shipments. RFgen's integrated shop floor data collection for SAP will help you achieve a real-time, accurate picture of inventory as it moves through your manufacturing process. Avoid stock-outs and minimize your material carrying costs while achieving end-to-end traceability, enforcing quality controls and meeting demands for shorter lead times.

RFGEN SOFTWARE - YOUR TOTAL SOLUTION PROVIDER

We help organizations reduce supply chain implementation costs and increase accuracy and efficiency with the industry's most reliable, flexible mobile data collection and barcode software solutions. Since 1983, we have become the industry leaders for supply chain barcoding solutions. Our global network offers worldwide support for complete end-to-end mobile data collection solutions. We not only provide robust mobile supply chain software, we also offer a complete end-to-end mobile data collection solution, including:

WHERE RFGEN IS USED

Warehouse and
Distribution Centers

Manufacturing
and Production

MRO and Asset Management

Field Service and Delivery

SUPPORTED TECHNOLOGIES

DATA COLLECTION

- Android Devices
- Barcode Scanners
- Carousels and Scales
- iOS Devices
- RFID
- Tablets and Smartphones
- Vehicle Mount Computers
- Voice Recognition
- Windows 10, Mobile and CE

ENTERPRISE INTEGRATIONS

- SAP
- Oracle's JD Edwards
- Oracle E-Business Suite
- Deltek Costpoint
- Microsoft Dynamics

GENERAL CONNECTIVITY

- COM Interop
- Databases
- IBM AS/400
- IBM Mainframes
- NET Assemblies
- UNIX Systems
- Web Service
