

Create time by harnessing interoperability with SAP using Excel to manage Master Data

Here at Cordis Solutions, we're strong advocates of Microsoft to SAP integration and we make sure that our products are fully SAP licence compliant. We provide intuitive and user friendly applications that will simplify your business processes using SAP and Microsoft interoperability toolkits, such as SAP Gateway for Microsoft and SAPui5 (Fiori).

Easy to use

Easy to deploy

Easy to manage

myMasterData

myMasterData has been designed to realize value from your SAP investment and gain time to focus on driving your business forward. myMasterData enhances the power of Microsoft Productivity Tools (specifically Excel) to collect, update, change and delete data and can;

- Help simplify a complex process and improve control and compliance.
- Ensure that the correct people are engaged in the process and thus improve collaboration and accuracy.
- Be compatible with their Azure cloud platform.
- Intuitive and easy to use.

Improve your level of efficiency in material management processes and achieve the following benefits:

Save up to 33% in TCO for Master Data Management

Manage any SAP Master Data using Microsoft Excel

Expedite Master Data creation: from 2-3 days to 2-3 hours

Benefit from flexible work-flow approvals
