

Create time by approving the right data, in the right place at the right time.

Here at Cordis Solutions, we're strong advocates of Microsoft to SAP integration and we make sure that our products are fully SAP licence compliant. We provide intuitive and user friendly applications that will simplify your business processes using SAP and Microsoft interoperability toolkits, such as SAP Gateway for Microsoft and SAPu5 (Fiori).

Easy to use

Easy to deploy

Easy to manage

myApproval

Automate, mobilize and streamline the approval process of all your business applications to help your managers and supervisors improve productivity, efficiency, control and governance.

- Consolidate approvals in one application.
- Connect multiple systems both SAP and non-SAP.
- Reduce workload and streamline processes.
- Enhance approval flow and centralize governance.

Uniting the power of SAP with the familiarity of web apps. (SAPu5) and Microsoft Outlook, myApprovals can;

Avoid the creation of yet another silo, by ensuring data remains in SAP or other original host systems.

Provide a web-based dashboard, that allows an anytime, anyplace access to tasks.

Provide key information to assist with prioritization and business decision-making.

Integrate tasks and approvals with Microsoft Outlook.
