

Product Overview

No more guessing, know your structure

Ingentis org.manager enables you to create and publish organizational charts within minutes. There are no limits for the design, layout or content of your org chart. With seamless integration to leading HR systems such as SAP HCM, PeopleSoft, Oracle or any other data source, your charts will always be up to date.

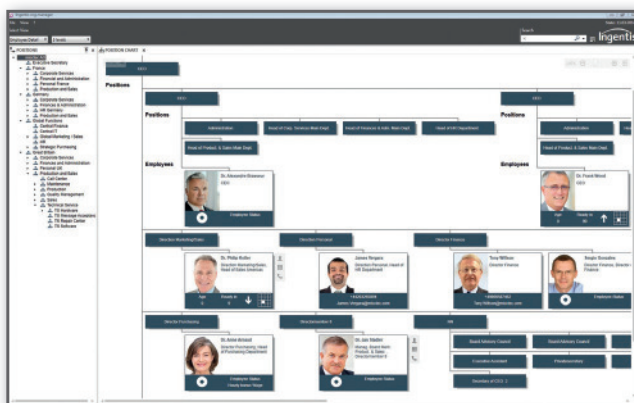

Today over 1000 customers worldwide trust in Ingentis org.manager.

View org charts on your PC, tablet or smartphone

Ingentis org.manager provides access via Internet Browser from any device and enables the effortless publication of your company's org chart via Intranet.

It also has comprehensive interactive capabilities for all levels of your user population – from executives to super users. For on-the-go or smaller group meetings org.manager [mobile] provides HR personnel and executives with a great tool to display information on the Apple iPad. Suited for daily use, the app gives access to organizational charts as well as more detailed information about departments, employees, and positions.

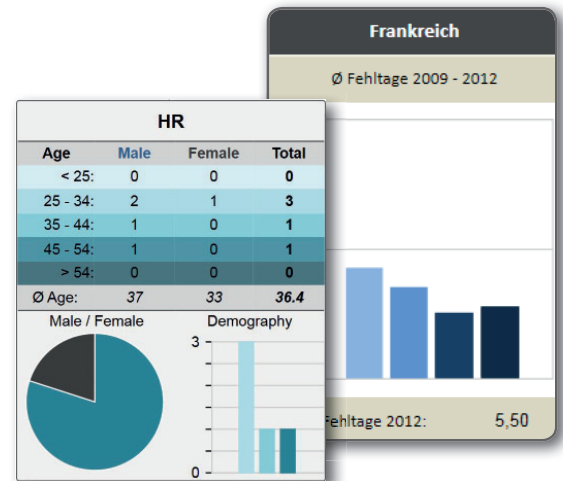

Additional Features

- Detailed view with pictures, diagrams and employee lists
- Simultaneous view of multiple charts
- Comparison of several objects
- Sophisticated printing functionality
- Quick search

View key measurements

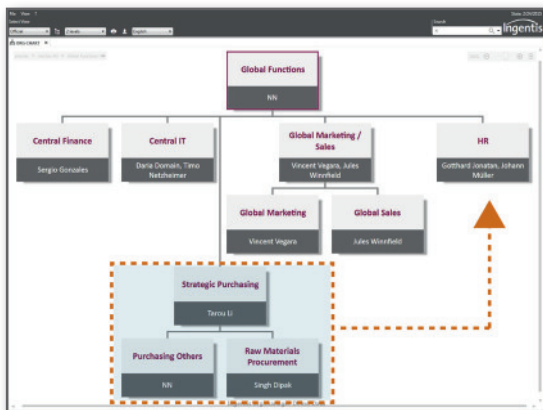

Ingentis org.manager empowers you to easily calculate critical KPI measures and to display them within your organizational charts. Ingentis org.manager generates easily comprehensible HR reports with key information like size of workforce, gender distribution, demographic analysis, utilization ratios, budget reconciliations and employee absenteeism.

By granting restricted access to specific sections, org charts can become a strategic tool for executives.

Create and analyze scenarios

Ingentis org.simulator enables web-based scenario analysis and modification of organizational charts without the need to modify the data in your source HCM system. From reorganizations via drag-and-drop to the creation and removal of departments, individual employees or vacancies, to editing more specific information, org modelling simulations can be completed in a simple and user-friendly manner. It also enables working collaboratively on a specific project with several colleagues.

Set security access restrictions for employees or groups

The Access Protection add-on lets you decide which information is visible and which employees can make updates. Employees can be permitted to retrieve or start simulations in the org.simulator. Create your own ESS/MSS portal – simple, quick and easy!

Top reasons to use Ingentis org.manager

Create, view and print org charts and HR reports quickly and easily

Simulate organizational changes within your web browser

Inexpensive implementation is completed in days, not months

Display critical KPI's and complex workforce data
