- > Artificial intelligence

# Digitalisation is complex, expensive and often fails

---

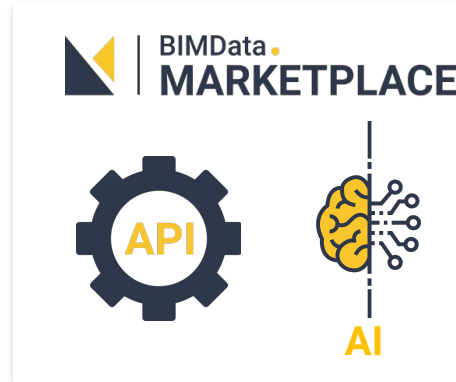

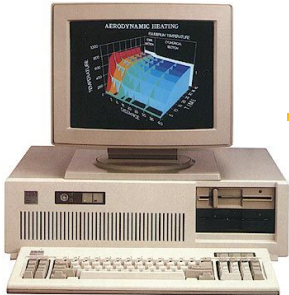

“We are making Innovation an easy ride”

# A Unique Selling Proposition

Legacy system

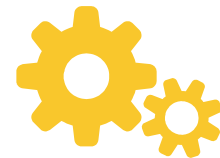

Innovative solutions

“ We bridge the gap between existing and state-of-the-art solutions through systems interoperability and off-the-shelf innovations”

# BIMData.io Solutions

---

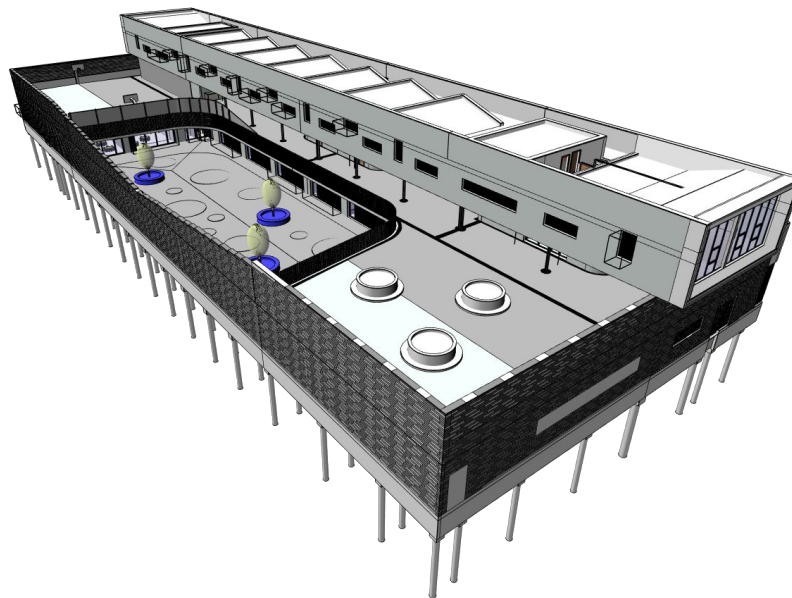

The 4 pillars of innovation:

# Success Story

- Computerized Maintenance Management System (CMMS)
- Planning permission software

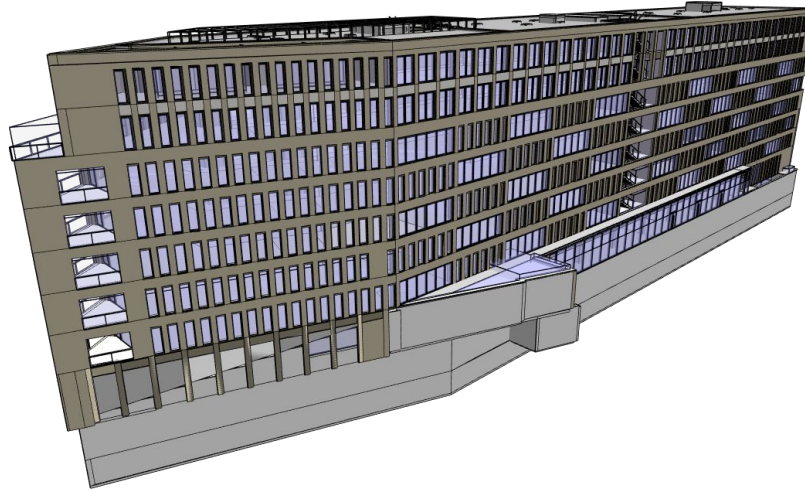

- BIM Library
- IoT
- AR

# Success Story

- Computerized Maintenance Management System (CMMS)
- Building Management System (BMS)
- Asset Management Software

- PowerBI
- AR

Collaborative Platform

# Success Story

- CMMS plugin within the viewer
- Data exchange through APIs
- Viewer tailored for specific use

d'ensemble des projets et infrastructures.

# Customer Value

---

## Simplify **innovation**

- **Focus** on existing tools
- Make training **easier**

## Reduce **CAPEX & Risk**

- No more journey to **major IT projects**
- **Innovation** off-the-shelf

## For **better results**

- **Instant** team **adoption**
- **No limits** to innovation & creativity
