4EXCHANGE FOR SAGE

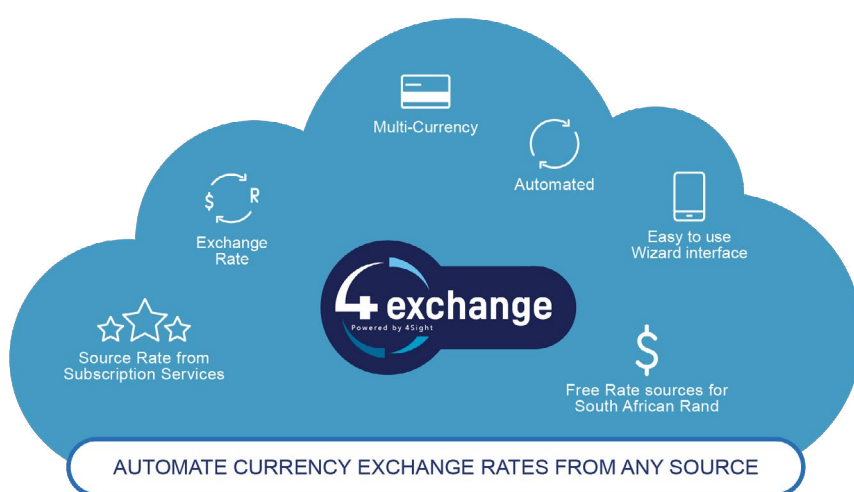

Import Exchange Rates Effortlessly!

Driving the global expansion of your business inevitably leads to some unique accounting challenges brought on by transacting in a multi-currency environment.

Organisations need to easily maintain international standards to eliminate the complexities arising from ever-fluctuating exchange rates.

Most companies rely on an ERP user to manually input the daily Spot Rate from their online source of choice.

4Sight has automated this tedious and often erroneous task with a brand new solution, 4exchange.

MAIN FEATURES

Instant exchange rate imports

Import straight to Sage 300 or Sage X3 currency tables

No more manual input errors

Maintain international standards

Choose Various Exchange Rate Sources

Extracting rates has never been easier. Source rates from various sources including OANDA.com, XE.com, RMB or the freely available website of FNB, Standard Bank and the South African Reserve Bank.

Various Import Options

You have the choice of the daily spot rate, monthly average rate, financial translation rate or current rate.

Simply select whether the conversion should be multiplied or divided, determine the spread, and let 4exchange manage the rest.

Choose Your Update Interval

The processing interval function allows you to determine how often the rates need to be refreshed.

Allow your rates refresh to occur daily at a set time or within an hour from new rates becoming available.

The Windows Scheduler service configuration will ensure execution and event logging of the process.

CONTACT US

Incorporated in 2017, 4Sight is a JSE AltX (ticker: 4SI) listed, multi-national, diversified technology group. Our purpose is to leverage our extensive product and services portfolio, focused on 4IR technologies, people and data-focused solutions to design, develop, deploy and grow solutions for our partners (customers and vendors).

The company's mission is to empower our partners to future proof their businesses through digital transformation to make better and more informed decisions in the modern digital economy.

4Sight's business model enables its partners to take advantage of products and solutions within its group of companies, which will allow them to enjoy turnkey digital transformation solutions across industry verticals.
