

Integrate your Sage 50 accounting system with a host of Ecommerce Sites, ERP and CRM platforms and more.

The Sage 50 Besyncly connector allows you to connect and integrate Sage 50 with a variety of business applications. With the ability to transfer data in real-time, or at customisable intervals, you have full flexibility to control where and when data is transferred.

What can Besyncly allow your Sage 50 platform to do?

Streamline and automate processes, giving you more time to focus on perfecting your business.

Automatically sync customers and sales orders to your Sage 50 system

Export products to other platforms such as eBay and Magento stores.

Handle multiple Sage 50 instances.

Receive email notifications for error reporting.

Update customers and products from several locations in ecommerce systems such as Amazon, eBay and Magento.

The following can be automated using Besyncly for Sage 50

IMPORT	EXPORT
Customers	Products
Sales Orders	Inventory Levels
Invoices	Customers
Products	Sales Orders
Suppliers	Purchaser Orders
	Suppliers

Main Features and Benefits:

Save Time and Money

Remove the need for the time-consuming manual transfer of data.

Make Informed Decisions

Get real-time reports instantly whenever and wherever you are, helping you make fast-paced informed decisions.

Cloud-Based

Being on the Google Cloud Platform means no need for downloads or updates.

Integrate Multiple Systems

Connect Sage 50 to multiple business systems.

Configurable

Customise our off-the-shelf integrations to meet the needs of your business. If we don't already offer the connector you require, we can work with you to produce this.

Security

Based on the Google Cloud Platform means your data is secure.

Easy to Set-Up

No need to be an IT expert to get Besyncly up and running with our pre-configured mapping, eliminating costly development and implementation fees.

Contact Us:

Besyncly is a product of Eureka Solutions, the award-winning cloud solutions company.
